

Bellacino's is Changing to Full-Service in November

First of all, We want to apologize for the slow service you have experienced due to the move to our new location. We have been reading your comment cards, and have made major improvements to our kitchen process, decreasing wait times. These changes have been implemented since Oct. 1st and have drastically improved service. Kelly and I have been debating going full-service for the last eight months, since we moved into the new, bigger Bellacino's location. For those of you who don't know what that means, we will have a hostess seating you and a server taking your order, getting your drinks and making you feel welcome. We would rather control how many people we feed and give better, faster service to the customers who are seated and ready to order and eat. We will have a hostess that will seat everyone and she will have a waiting list like all restaurants do when they get busy. We will have a waiting area in the front vestibule, hallway, bar and game room. I hope this change does not cause us to lose any of our current customers. We are doing our best to make the changes needed to bring our customers a better and more enjoyable experience at Bellacino's.

Bellacino's Feeds the Cleveland Cavaliers!

We have been feeding many of the Akron University and Kent State University sports teams consistently over the last 11 years. On Saturday, October 3rd we had the opportunity to provide food for the Cavs after their Wine & Gold scrimmage at Akron University. One of our contacts at Akron University, who loves our food and the quality service we provide, recommended us when the Cavs operations person asked him if there was a good restaurant to order from. We have to say being a big fans of

Lebron James and Shaquille O'Neal made this fun for us. After the players ate and came out of the locker room, Shaquille O'Neal told us the food was great and asked where we were located. So who knows, maybe some time when you're eating at Bellacino's you just might see Shaquille O'Neal come in for a grinder

Great Lakes Beer Tasting a Great Success!

A great time was had at the first Great Lakes Beer tasting at Bellacino's. A special thanks to Zak Blau from Great Lakes Brewing and Joe Manos from Superior Beverage. They did a great job of running the beer tasting and giving us insight in how each is brewed at Great Lakes. They explained the history of the porters, lagers, ales and various other flavors of beer. We had 81 people attend the tasting and unfortunately had to turn away twenty people because we had limited amount of beer that was pre ordered for the event. We did learn a few things from the last tasting and that will make our next tasting go smoother. We will have some appetizers, grinders and pizza to enjoy with your beer. We will also have a microphone system for next tasting, which happens to be the wine tasting on October 21, 2009. Look for our Winter Beer Tasting Jan. 13th 2009.

You are also welcome to call the restaurant and ask for the bartender or manager and they can take your credit card number and get it paid over the phone. You can reach us at Bellacino's at our new number which is 330-678-3000.
